

RemedyASAPSM is an online custom survey tool that lets you conduct web-based human resources and compensation-related surveys confidentially and inexpensively.

Compensation and HR benchmarking surveys are tools that most companies need, but few have the resources to administer surveys in-house; and many require an impartial third party—assuring the integrity and confidentiality of both internal and external survey processes. We do it with our online survey system—RemedyASAPSM.

WHY REMEDYASAPSM?

Specialized data quickly

Looking to collect information quickly? RemedyASAPSM allows you to quickly and cost-effectively build a survey that gathers the specific information you desire. In most cases, we can have your survey ready to launch online within a week. Once the data is collected, our tool can complete the analysis within a few days of closing the survey. Having relevant data collected within a short period of time is critical to real-time decision making.

Accuracy and data integrity

RemedyASAPSM allows you to deploy a survey sound in survey methodology ensuring the accuracy and integrity of the process. This feature is paramount for increasing participation as those involved know that their data is treated with confidentiality and correctly reported.

No survey to large or small

Our system is scalable to any size survey from a few critical questions to the most comprehensive research. Our system has no limitations to the number of survey questions or participants.

Proven approach

We offer a proven approach to managing the survey process and will lead the entire project including, questionnaire development and testing, participant solicitation, analysis and reporting.

Cost efficiency

Prohibitively expensive in the past, our online technology allows us to conduct surveys at very reasonable fixed rates.
